International Amateur Radio Union Region 1

Europe, Middle East, Africa and Northern Asia Founded 1950

General Conference, Davos, 11 to 16 September 2005

SUBJECT:	BANWIDTH COLUMN IN ALL VHF/UHF/MICROWAVE BANDPLANS.		
Society:	EDR	Country:	Denmark
Committee:	C5	Paper number:	09
Contact:	Ivan G Stauningg	e-mail:	is@ihk.dk

During the conference in San Marino the principle to include a bandwidth column in the V/U/S/E-HF bandplans was introduced.

To ensure the good work started in San Marino continues, the EDR propose to extend the bandwidth principles already in the bandplans for 50 and 144 MHz to cover as well:

The 70 MHz band
The 432 MHz band
The 1,3 GHz band
- As well as all the other microwave bands.
