SUBJECT	Rules for IARU contest – WRTC category		
Society	HRS	Country:	Croatia
Committee:	C4	Paper number:	27
Contact:	Petar Miličić, 9A6A	e-mail:	9a6a@hamradio.hr

On the last 3 WRTC championships (in USA, Slovenia and Finland) Croatia had our representatives. As we have many very good contesters in Croatia, we decide to make our national competition to select our team for WRTC contest.

Five best teams will work in IARU contest 2005 same as on WRTC and the best will be Croatian competitors on WRTC in Brazil. We will make 5 locations similar as in WRTC competition in one part of Croatia, and they will use 3 letters call signs: 9A0ABC, 9A0BCA, etc. If we have rules same as WRTC for our competitors - no 10 minutes rules, our WRTC competitors will not be in IARU rules - 10min rules.

As we would like that official results of IARU contest will select our team, we recommended making separate category - **WRTC rules category in IARU contest**.

IARU HF contest WRTC category proposal:

1. Multi operators (2 operators)
2. Low power (100W)
3. 3 el. 3 band Yagi rotary antenna, dipoles for 40m and 80m bands
4. No 10 minutes rules limitations
