

International Amateur Radio Union Region 1  
General Conference - 16<sup>th</sup> to 21<sup>st</sup> November 2008 - Cavtat, Croatia

SUBJECT	Funding for STARS Projects		
Society	OeVSV	Country:	Austria
Committee:	C3	Paper number:	CT08_C3_27
Author:	Mike Zwingl, OE3MZC		

### Background:

Significant amount of money is being used for activities summarized in the project name STARS.

### Situation:

In respect to the amount of money spent there is no short/middle term result visible to members. The numbers of amateurs in many African countries is not growing accordingly and only minimal progress is done in reciprocal licensing agreements with CEPT.

### Recommendation:

Therefore the OeVSV recommends to:

- Revisit the goals for STARS program,
- eventually reduce funding,
- or define clearly what specific projects should be sponsored by IARU-R1 STARS fund.
- Publish a detailed progress report about STARS activities yearly.
