

Madrid, July 17, 2006

Michael Kastelic, OE1MCU
Chairman of the VHF/UHF/MW Committee, IARU Region 1

Dear Michael,

After studying your letter dated June 16th, 2006 and recognizing that we did not realize the Davos "clarification" about the unique QSOs, we have decided to recalculate the results of the IARU R1 UHF-Microwave Contest 2005 because we must observe the General Conference decisions.

Concerning our previous classification, we thought that, if the old rules did not specifically forbid it, we could not consider the unverifiable QSOs, according the procedure followed by us for the URE contests.

73,

Aníbal García, EA1ASC
VHF/UHF Award & Contest Manager
